To Whom It May Concern:

It is without reservation that I recommend Lori Gardner for employment as an elementary educator. She worked with me as an intern and student teacher during the 2011-2012 school year at Hillsboro Elementary School. I have been able to witness her collaboration and communication with all children as well as their parents. She will make an outstanding educator for your district.

Mrs. Gardner has embraced leadership opportunities. She is willing to improve herself by becoming very familiar with the curriculum, programs, and any resources that will aid the students. She is flexible and eager to take on new challenges that a classroom can bring each day. She is very efficient and effective in accomplishing any tasks she is asked to complete. She is also highly organized and motivated. When planning lessons she uses research based strategies and strives to help all learners meet their true potential. She develops innovative techniques to enhance the learning of all the students and differentiates instruction based on individual needs. She has an unbelievable work ethic. It is very apparent that her true passion is teaching.

I am convinced that Mrs. Gardner will be a great asset to any classroom as well as any district. Please do not hesitate to call or email me if you require further insights into her skills or character.

Sincerely,

Mrs. Anne Janiesch  
Third Grade Teacher
